

Saish
PAINTS

आपके सपनों के रंग!

INDUSTRIAL STRENGTH, PERFECTED IN EVERY COAT

Saish Industrial Paints & Coatings deliver long-lasting durability, chemical resistance, & flawless finishes, built to withstand the toughest industrial environments.

Technical Data:

Application:

OEM machinery, equipment, racks, fixtures, bridges, warehouses & enclosures

Industries:

Engineering, Automotive, Infrastructure, Real Estate, Retail & Agro Equipment

Supply:

Flexible MOQs with project-based planning

Quality:

ISO 9001:2015 aligned QC; each batch tested for viscosity, adhesion, DFT & chemical resistance

Support:

Site trials, TDS/MSDS, SOPs, and applicator training provided

Facilities:

Advanced mixing, dispersing, tinting, filtration & testing setup

Quantity:

200 mL sample to 20 L pails & 200 L drums (as required)

Quick Drying

Easy Application

Tested Quality

Weather Protection

Epoxy Systems

High-build epoxy primers & topcoats, HB MIO, solvent-based & low-VOC variants; chemical & abrasion resistance

Primers & Undercoats

Epoxy zinc phosphate, zinc-rich primers & red oxide primers

Quick Dry

Fast-turnaround shop primers & topcoats for fabrication lines & maintenance

Polyurethane

Aliphatic & aromatic PU topcoats for UV stability, gloss retention & superior aesthetics

Monocoat / Single-Coat DTM

Direct-to-metal, anti-corrosive mono coats for faster application cycles

Heat-Resistant / HR Coatings

Silicone-based systems for elevated temperatures

Special Applications

Chemical-resistant, topcoats, floor coatings, & machinery enamels (as per need)
